

Introducing CheckMate

CheckMate revolutionises equipment tracking and management with advanced automation, ensuring accuracy, efficiency, and real-time reporting. Designed to streamline asset verification and shift handovers, it minimises manual errors and enhances operational transparency. With CheckMate, your team can focus on productivity while our technology handles the rest.

Key Features

- **Auto Equipment Count:**
 - o Automatically tracks and counts equipment in real-time.
 - o Eliminates manual counting errors and saves time.
- **Faster Asset Clearance After Shift:**
 - o Streamline shift handovers with quick and accurate asset clearance.
 - o No more delays or confusion during transitions.
- **Less Human Interactions (Reducing Errors):**
 - o Minimise manual interventions and human errors.
 - o Smart technology ensures reliable and consistent results.
- **Faster Equipment Movement Verification:**
 - o Quickly verify equipment movement after shifts move underground.
 - o Ensure everything is accounted for in record time.
- **Accurate Equipment Movement Reports:**
 - o Generate precise, real-time reports for better decision-making.
 - o Track equipment movement history with confidence.
